

The world's most
comprehensive

Math & Science Digital Curriculum

for K-12 Education

Interactive eContent Packages for Digital Natives

THOUSANDS OF DIGITAL RESOURCES

A huge database of digital materials, including: interactive exercises, tests, educational games, animations, videos, slideshows, simulations, 3D objects and more.

STIMULATING AND ENGAGING

Designed to fit relevant age groups, making the learning process attractive, stimulating, enjoyable, and highly effective.

CONSTRUCTIVIST APPROACH

A large variety of activities combining presentations, experiments and tests support the constructivist teaching style.

EASILY ADAPTABLE

Initially organised along the British curriculum, mCurriculum can be easily adapted to match other national K12 curricula.

EASILY LOCALISABLE

Created to be easily and quickly localised to different languages and alphabets.

FLEXIBLE STRUCTURE

Well structured and highly hierarchical content makes it perfect to be used both as a leading or supplementary material.

TRULY MOBILE SOLUTION

Built with mAuthor, mCurriculum is truly mobile and accessible from multiple browsers and mobile devices regardless of their screen resolution.

ONLINE/OFFLINE ACCESSIBILITY

Originally designed as an online solution, mCurriculum can be deployed and used offline with optional result synchronisation.

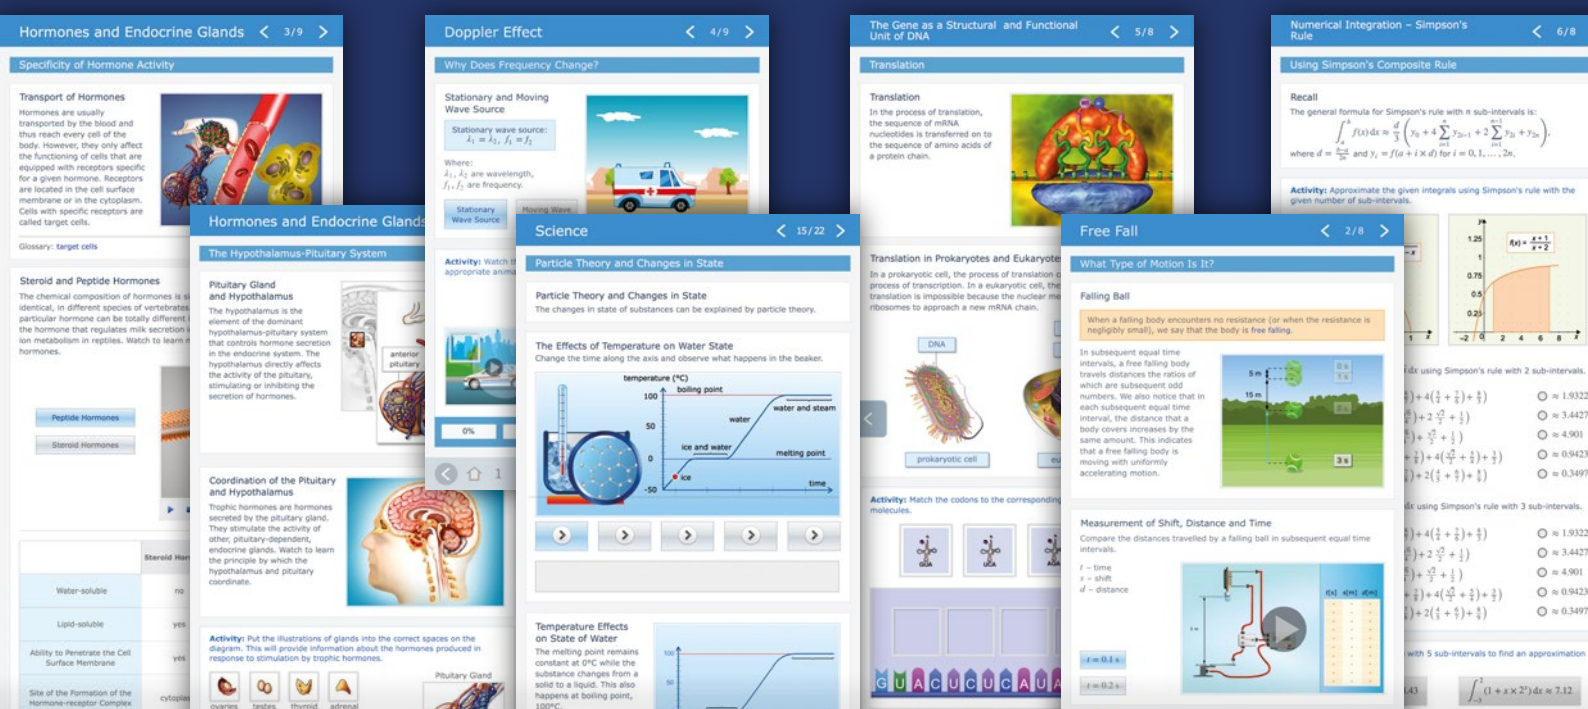

BIG DATA

Extensive monitoring capabilities make it perfect for collecting a huge poll of information regarding learners' results and activity.

INTERNATIONAL COVERAGE

Successfully implemented in over 30 international markets.

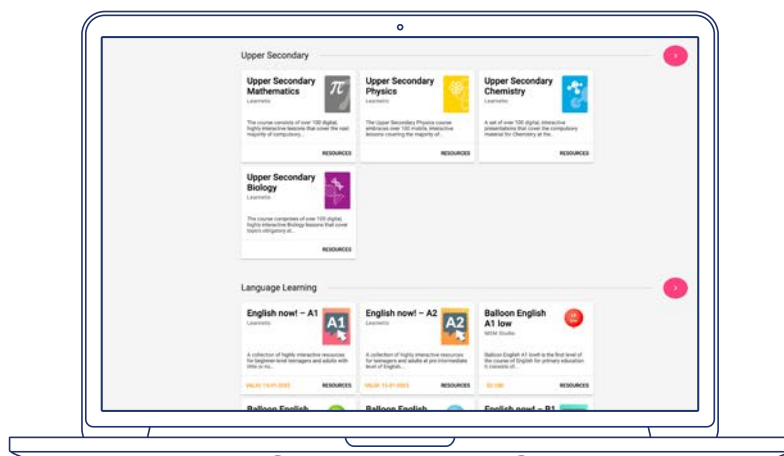

Interactive eContent Packages ready for adapting and localisation

mCurriculum comprises eContent Packages of ready-made, highly interactive educational resources covering a wide span of subjects at different learning stages. The packages can be easily translated, localised, re-arranged and adapted to fit the specific textbook, curricula or learning standards. They can also be white-labeled and published under the brand of the particular publisher, organisation or even the ministry of education.

mCurriculum comprises over a thousand highly interactive Digital Lessons covering Maths, Science, Physics, Biology and Chemistry. Thousands of high quality videos, animations, pictures, 3D objects and simulations represent hundreds of topics in an attractive and engaging way. The courseware is designed according to the most advanced digital publishing technologies, and works on both mobile and stationary devices.
